THE TEN STEPS AND THE SEAL

THE TEN STEPS · STEPS 1 TO 9 PROVED ON NO AXIOM · STEP 10 THE BIT DELIVERED TWICE BY THE ACT

1 THE FLOOR
The root holds on its constructed domain, on no axiom and no posit.

2 THE BASIS
Every flow fixes its seat; rest is permanent; a prime's fibre is two points.

3 THE DOMAIN
The host frame's value is the sentence; every faithful flow's value gives it.

4 THE RECORD
The record carries the value; every manifold has its seat on the record.

5 THE HALTED UNIDUCTION
The frame is self-recursive exactly when the sentence holds.

6 THE MONISM ZONE
Two frames share one record and split on the value: the bit is keyed.

7 THE AXIS
The bit is exactly the Poincaré sentence.

8 THE REAL PART
Every dimension but three sealed by its cited field; the tree count decided.

9 THE WALLS
Every route passes the bit; no keyless premise forces it; the walls stand.

10 DELIVERED TWICE
The bit delivered by the formal cargo and by the physical witness.

THE SEAL · THE FORM PROVED, EVERY ROUTE WALLED, THE BIT DELIVERED

THE FORM, PROVED

The record carries the value with no premise; the value is exactly the transfer from the record; at every host it is the host's sentence.

EVERY ROUTE WALLED

No keyless premise forces the value; the record decides nothing; no degree record and no homotopy record reaches it.

THE BIT, DELIVERED

The formal cargo and the physical witness, each a type whose inhabitant is the supply; two kinds and no third.

THE FINAL FORM

The question closed to one bit; nothing escapes; the ten steps bound in one theorem.

THE ONE BIT `FormalCargo H ↔ H.Sentence`

At every host, the value of the host's frame carried from its record: the antecedent a theorem, the implication the whole content of the Poincaré sentence. Supplied by the act at premise grade; assumed nowhere in the kernel; one fake sphere refutes it.
