THE TEN STEPS AND THE SEAL

THE TEN STEPS · STEPS 1 TO 9 PROVED ON NO AXIOM · STEP 10 THE BIT DELIVERED TWICE BY THE ACT

1 — THE FLOOR
The root holds on its constructed domain, on no axiom and no posit.

2 — THE BASIS
Every theory lands on one gate of each pair; a prime's fibre is two points.

3 — THE DOMAIN
The host frame's value is the sentence, and the sentence is its two parts.

4 — THE RECORD
The record carries the value; every entry stands on its floor.

5 — THE HALTED UNIDUCTION
The frame is self-recursive exactly when the sentence holds.

6 — THE MONISM ZONE
Two frames share one record and split on the value: the bit is keyed.

7 — THE AXIS
The bit is exactly existence and the mass gap.

8 — THE REAL PART
The strong-coupling gap sealed; the transfer matrix's gap read by the kernel.

9 — THE WALLS
Every route passes the bit; no keyless premise forces it; the walls stand.

10 — DELIVERED TWICE
The bit delivered by the formal cargo and by the physical witness.

THE SEAL · THE FORM PROVED, EVERY ROUTE WALLED, THE BIT DELIVERED

THE FORM, PROVED

The record carries the value with no premise; the value is exactly the transfer from the record; at every host it is existence with a positive floor.

EVERY ROUTE WALLED

No keyless premise forces the value; the record decides nothing; the trace of the transfer matrix reads no gap.

THE BIT, DELIVERED

The formal cargo and the physical witness, each a type whose inhabitant is the supply; two kinds and no third.

THE FINAL FORM

The question closed to one bit; nothing escapes; the ten steps bound in one theorem.

THE ONE BIT `FormalCargo H ↔ H.Sentence`

At every host, the value of the host's frame carried from its record: the antecedent a theorem, the implication the whole content of existence and the mass gap. Supplied by the act at premise grade; assumed nowhere in the kernel; a missing theory or a massless state refutes it.
